4H FHC Christmas Celebration

First off Happy Holidays to all our 4Hers and their families. We had a great fall and look forward to the coming year. As a way to wrap our year, FHC Executive Director, Aster Bekele really wanted to celebrate the kids and the families who participated in 4H Tech Wizards this fall. From the rocket launch to the marshmallow catapult, kids got to take control of the engineering process. It is the hope and mission of the Felege Hiywot Center to inspire kids to love the sciences working to help them build confidence in their abilities. By partnering with the 4H Tech Wizard program, FHC continues to extend the mission of science education by strengthening kids, building community connections, and inspiring future scientists and engineers.

The staff at FHC are looking forward to baking cookies and assembling some projects that families can enjoy over the holiday season. Wishing you and your family a blessed and Happy Holiday.

Science At Home

Looking for some fun stuff to do related to science at home over winter break. Here are just a few websites to check out. There are tons of resources online many things families can do together.
